

PROJECT

Project Name: BON VOYAGE - Travel Planner

Introduction:

BON VOYAGE -Travel Planner system helps both the users and the travel agencies. This system allows users to select the perfect destinations for their trip and can see the details of travel agencies which provide good packages. It includes Hotels, Resorts, main attractions of place, package rate, package days, agency details and can book their package.

For travel agencies this system helps to upload their new packages, update existing package, able to see the registered users whom are planning a trip and can contact them.

MODULES:

This system have 3 modules.

1.ADMIN MODULE

2.AGENCY MODULE

- Register
- Login
